

Anthony Barber Associates, Ltd.

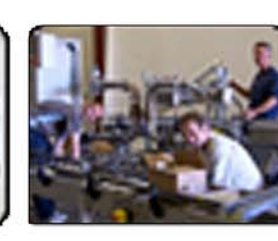

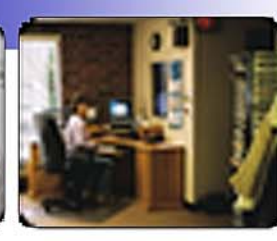

**Manufacturers of Liquid Filling Machines, Paint Filling Machines
and Spare Parts for ABA, Thiele and Neumo Fillers**

“The Best in Liquid Filling Machines”

**Customer Service, Reliability and
Value are words our customers
use when they talk about**

We design and built liquid filling machines for customers all over the world. Every machine is custom designed and built to meet each customers exact requirements.

From single station manual filling machines to high performance fully automated filling machines that change from diving probe to top fill modes at the press of a button. Whatever your needs, we can make it happen quickly and with a price performance level no other manufacturer can match.

ABA-FILL-TF5PSF-S1-EC-5LP

Lid placers, droppers, crimpers and presses, we design and build everything we make to ensure the highest quality and low maintenance while providing increased value to our customers.

Pneumatic Indexing Crimper

Anthony Barber Associates, Ltd.

Manufacturers of Liquid Filling Machines, Paint Filling Machines
and Spare Parts for ABA, Thiele and Neumo Fillers

Our Cone Style Fill Heads, known as the ABA-COV Series are the best in the industry. Improved performance and reduced maintenance over capillary style fill heads. With versatility second to no other in the industry we are able to fill almost any product from light viscosity stains to high viscosity sealants.

ABA-COV Cone Style Fill Heads

Single Platform Mobile Filling Machines

At ABA, we are constantly listening to our customers and improving our products based on your ideas and requests. Our latest "Single Platform Mobile Filling Machine" is a fully integrated system. The components required for any style of filling machine are mounted on a single integrated mobile platform. These components include; Volumetric Pumps, Net Weight Scales, Nozzles, Controls and Lidding equipment. This integrated design allows our customers to easily move the machine to any location within their plant or to a maintenance area for routine maintenance and cleaning.
